INTRODUCTION TO SEGi UNIVERSITY

SEGi was established in 1977 as Systematic College in the heart of Kuala Lumpur offering professional qualifications. Since its founding over four decades ago, SEGi has undergone significant growth, strengthening the quality of its wide range of programmes from foundation to doctorate level.

It is one of the most established private higher education institutions in Malaysia with its flagship campus located in Kota Damansara and four other campuses in Subang Jaya, Kuala Lumpur, Penang, and Kuching. Currently, SEGi has a population of 20,000 local and international students across its campuses.

SEGi is recognised as "The first Malaysian University that earned 5 Stars for Prioritising Society's Needs in Malaysia" by QS Stars, an international evaluation system for universities based on auditing.

ENVISIONING A CAREER IN OPTOMETRY

SEGi University offers the most modern and contemporary optometry degree in Malaysia, and is one of the few institutions to offer an optometry programme. Our Bachelor of Optometry (Hons) will help you gain knowledge and expertise in subjects relating to the identification and treatment of dysfunctions and disorders of vision, and the vision system.

Our campus in Kota Damansara includes state-of-the-art facilities such as our eye care centre called SEGi EyeCare, which allows students to study optometry in a real-world setting and to gain practical experience using the latest specialised equipment.

The programme emphasises clinical practice and offers an excellent integrated, professional, and scientific education in optometry. Clinical placements will take place in hospital eye departments and private optometry/ophthalmology practices. It allows you to apply the knowledge and skills you gain during your programme prior to starting your career in optometry.

“Contemporary optometry has gone well beyond spectacles and contact lenses. This philosophy is well embedded within the Bachelor of Optometry (Hons) programme at SEGi where students are trained in the examination of eye health in generating prescriptions for correcting their patients’ vision.”

STUDENT TESTIMONIALS

"I chose SEGi University is because not many universities have the Bachelor of Optometry programme in Kuala Lumpur. Besides, I believe SEGi University can provide me with a wonderful university life better than other universities. SEGi University also provides clinical training to students like me to perform comprehensive eye examinations on the public regardless of age and complication of cases at the clinic on campus."

Loong Jia Ming
Bachelor of Optometry (Hons)

"SEGi offers unrivalled facilities throughout my studies as it is the only university that provides its own eye clinic facility. SEGi EyeCare is an eye clinic open to the public, providing comprehensive eye examination. This gives us greater exposure to clinical conditions and chances to educate and communicate with the public. This programme includes many hands-on practical subjects, which helps me more than textbooks and enhances my passion to care for people's vision. Our experienced and dedicated lecturers are always supportive and caring. They are my role models and their professional image inspires me to be a professional optometrist one day."

Loh Pei Ying
Bachelor of Optometry (Hons)

"SEGi Faculty of Optometry & Vision Sciences provides its students with an unrivalled clinical experience. Students enter the clinic right from the first year and by the end of my second year I'm conducting eye exams on patients! And as the school is located in Malaysia, it has the advantage of a very diverse patient population."

Nur Ayuni Mahirah
Bachelor of Optometry (Hons)

"I'm glad that I've chosen SEGi to study optometry because the lecturers are experienced in their field and are always helpful. In addition, students are exposed to vision screening activities and it is most beneficial when starting a career in optometry."
