BA (Hons) / BSc (Hons) Scheme in Language Sciences, Translation, and Speech Therapy

語言科學、翻譯學及言語治療(榮譽)文學士/理學士組合課程 (JS3330)

Choosing your major

Students admitted to the Scheme study a common curriculum in Year One and complete their chosen programme (one of the three below) over the following 3 years. Applicants holding alternative qualifications with outstanding academic result and good interview performance may be given a conditional offer of guaranteed admission into a programme of their choice (from Year 2 to Year 4). Other than 'guaranteed' admission cases, priority of programme choice from Year 2 to Year 4 will be based on the students' GPA of all discipline-specific requirement subjects at the end of their first year studies.

Special notes to applicants

- Applicants are invited to attend an interview, accompanied by a possible written test in English and Chinese, to evaluate their potential/suitability for admission to the programme, and to examine their communication skills and interest in the field of study.
- To be considered for the BSc (Hons) in Speech Therapy on a competitive basis by the end of their Year 1 studies, students should be able to communicate verbally in both Cantonese and English effectively; proficiency in Mandarin (Putonghua) is preferred.

Medium of Instruction

English and Chinese

(Putonghua by default; Cantonese only used in elective subjects on the Cantonese language)

Characteristics

- The teaching team is composed of academic and teaching staff with considerable teaching experience, proven research track records and extensive clinical expertise.
- The programme is designed to equip students with the professional and academic knowledge base, clinical and research skills, and attitudes and ethics required to function effectively as professional entry-level speech therapists.
- The curriculum offers a unique approach to education and training in Cantonese, Mandarin and English, addressing speech therapy in both Chinese and bilingual contexts. A hybrid teaching and learning approach is adopted: traditional lectures are conducted in the first year of BScST, and the problem-based learning (PBL) approach is adopted in the second year of BScST.

Recognition

Contingent on successful accreditation of the programme by the Hong Kong Institute of Speech Therapists (HKIST), BScST graduates will be qualified to practise as registered speech therapists in Hong Kong.

Career Prospects

Graduates are equipped to practise as speech therapists in different service settings in Hong Kong, such as the Hospital Authority, non-government organisations, special and mainstream schools, private clinics, as well as other community service providers.

Medium of Instruction

English

(Supplemented by Cantonese and Putonghua for clients in clinical placements)
